**LETTER IN RESPONSE TO NOTICE OF MISSING REQUIREMENTS UNDER 37 CFR  
1.821-1.825**

Dear Sir:

In the Notification of Missing Requirements Under 35 U.S.C. 371 In the United States Designated/Elected Office (DO/EO/US), that we received from the United States Patent and Trademark Office dated April 30, 2002, it is stated that we must provide a Sequence Listing on paper copy or on compact disc. Since this application is an electrical application and does not include any nucleotide and/or amino acid sequence disclosure, we believe that this is an error and a sequence listing is not necessary to complete the requirements for this application.

We would appreciate you addressing this matter and confirming that this section was included in error.

Respectfully submitted,

Paul D. Greeley
